The DLD Strategy Tree
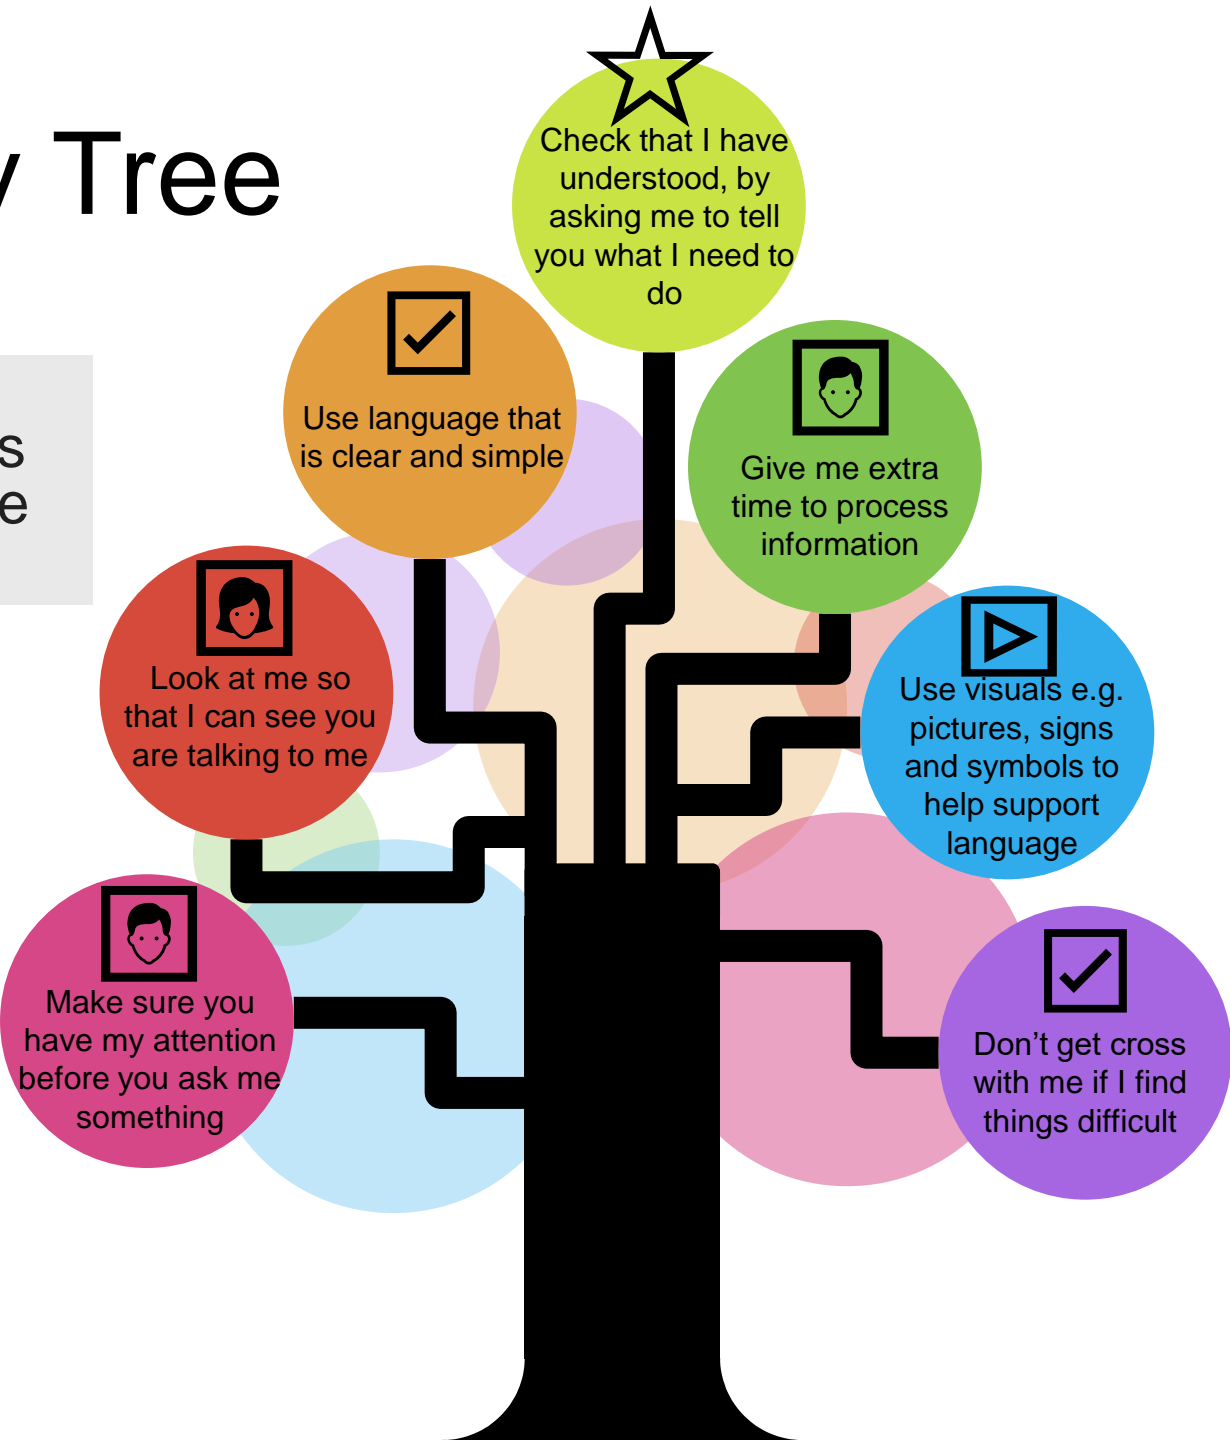

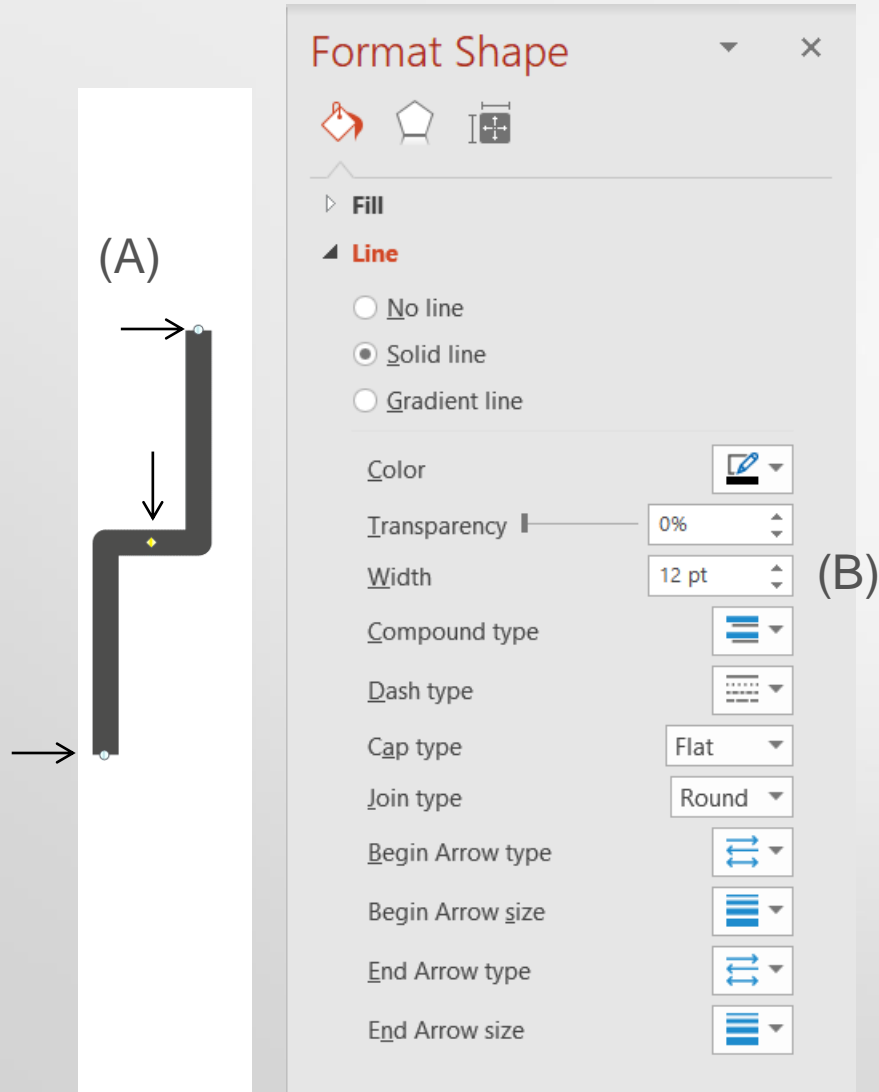

Here are some strategies that people with DLD have said helps them to understand as well as be understood in their talking

Check that I have understood, by asking me to tell you what I need to do

Use language that is clear and simple

Give me extra time to process information

Look at me so that I can see you are talking to me

Use visuals e.g. pictures, signs and symbols to help support language

Make sure you have my attention before you ask me something

Don't get cross with me if I find things difficult

Adjusting Branches

- Use the end points and the elbow as needed (A).
- When scaling, you may have to change the width of the line (B).

Adjusting Tree Trunk

Scale the tree trunk vertically by adjusting the middle segment (C). Next, move the top or bottom to connect to the middle segment.
